

Instant Black Tea Powder

Black tea is the most popular tea in the world, it is the tea most widely used in making iced tea and English tea. During the fermented process, black tea forms more active ingredients and theaflavins. It contains high amounts of Vitamin C, along with calcium, potassium, magnesium, zinc, and etc., it also has more anti-oxidants than green tea, and is anti-viral, anti-spasmodic and anti-allergic. In addition to all of these health benefits, black tea is also less astringent and has a mellower flavor than green tea, it perfect for drinking throughout the day, and also suitable for all ages.

Tea polyphenol, caffeine and theanine are main components of instant black tea, it's used for improving and treating hypertension, hyperlipidemia, diabetes, atherosclerosis, and preventing heart disease.
